ROOF BOXES & ROOF RACKS

KAMEI stands for innovative solutions "Made in Germany". Our customers can rely on multi-award-winning workmanship from Germany. We have the highest standards for the quality of our products and grant for all roof boxes a 6-year warranty period on material and manufacture.

After the successful realignment the company with a long tradition looks ahead with new concepts: The range of products has been modified, which we have adjusted and extended with modern ideas. We have also adjusted our strategy- constant delivery capability ranks first.

We hold on to proven strengths and build on them. Above all, this includes the high level of quality and the comfort of handling that KAMEI products stand for. The creative and practicable solutions are still produced at the location in Germany, the personal customer service remains excellent.

With a roof box from KAMEI you enjoy highest comfort when travelling. You are mobile and can take everything you need with you. The wide range of roof boxes is complemented by a smart variety of accessories. On the following pages you find convincing reasons to decide for KAMEI. For example our new Husky 620, the roof box for large luggage.

6-YEAR WARRANTY

HUSKY-Series

Husky, the roof-box for beginners, impresses with modern design and is robust, reliable and easy to assemble. The product models are available in different colour and size options (from 300 l up to 600 l) - therefore we offer a suitable solution for every individual preference and every transport good. As with the other KAMEI roof boxes a six-year warranty is also given for Husky on material and manufacture "Made in Germany".

FOSCO-Serie

The design of the roof box series FOSCO is unique: It picks up on the current trends in modern car models and impresses with its distinctive design. FOSCO roof boxes are available in two sizes (420 l and 540l) and in two different colours. Both models are provided with a central locking system and the fast mounting system ClickFix. Of course a six-year warranty is also given for these boxes on material and manufacture "Made in Germany".

WALL MOUNT

With the all-purpose wall mount of KAMEI you can store your roof box conveniently and save space during storage. When not in use it can be folded flat against the wall.

Wall mount

standard 0 81208 03

ROOF BOX COVER*

The cover protects the surface of your roof box when it's not in use. It prevents damage caused by UV radiation or scratches and a re-soiling after cleaning.

Material: 100 % Polypropylen, washable.

ROOF RACK SYSTEM

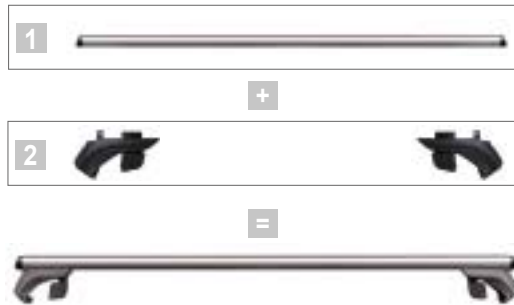

Roof Racks

FIXRACK

The roof rack system

For vehicle models with roof rails the KAMEI aluminium rack system FixRack is the perfect basis for roof boxes. With the different lengths of the crossbars, the system can be combined conveniently with many vehicle models.

How does FixRack work? First pick the fitting **1** crossbars. You can find them in the vehicle list on our website or with the help of your specialised dealer. Then combine the crossbars with the corresponding support feet **2** for the roof rails and you receive a fitting rack for your roof box. The foot of the roof rack can be used for free-standing as well as integrated roof rail models.

Two special rubber cover profiles make mounting roof boxes on a roof rack with sliding adapters even faster and more convenient. Unlike with other rack systems, the rubber cover profiles do not need to be adapted or cut to size. They just fit.

- 1 Crossbar type 1**
Pack of 2, aluminium
Max. load: 100 kg
Crossbar dimensions (L X W):

SLIDING ADAPTER

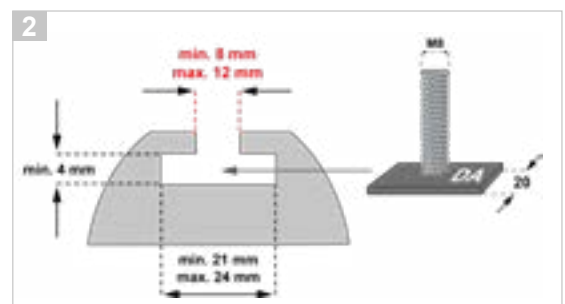

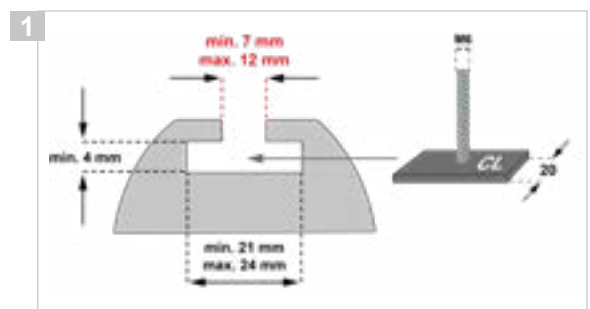

Specifically designed sliding adapters (exclusively for the use of vehicle-rack-profiles with inset groove guide) ensure a convenient and fast mounting of the roof box. In addition locking screws, which fix the quick release sliding adapters, support safety.

Comfort-sliding-fitting-system

20 mm groove guide (M6) 0 52003 10 (until 1/12)

20 mm groove guide (M8) 0 52005 10 (from 2/12)

- 1** Comfort-sliding-fitting-system (M6):
20 mm adapter for groove guides
up to 24 mm width of profile.
- 2** comfort-sliding-fitting-system (M8):
20 mm adapter for groove guides
up to 24 mm width of profile.
